

**Title: Weekly HIS Departmental Report – Wilson Mutua**

**Date: 6/11/2023**

**Reporting Week: 23/10/23 – 3/11/23**

**Summary:**

The main objectives of the Qualipharm 3.0 project were to build modules to assist in speeding up the learning process for joining the HIS (Health Information Systems) department.

**Completed Modules:**

- Product
- Quotation
- Requisition
- Facilities
- Counties
- wards

**Key Achievements:**

- Successfully built several modules, including product, quotation, requisition, facilities, counties, and wards.
- Assisted in speeding up the learning process for joining the HIS department.

**Upcoming Goals:**

For the upcoming week, the key goal for the Qualipharm 3.0 project is as follows:

Continue building more modules as instructed by the supervisor and continue the learning process for joining the HIS department.

**Challenges:**

Learning Curve Challenge: Encountered challenges related to the learning curve associated with new technologies and languages, impacting the pace of development.
